

Incontinence

*The Independent Lifestyle Company is proud to be the sole importer of **WEAREVER**, the USA's favourite brand of washable incontinence underwear.*

Wearever looks and feels like normal underwear so you can manage your personal situation while keeping your sense of style and comfort. The underwear, from regular to super-absorbent, helps you to control leakage without the inconvenience of changing and replacing adult diapers.

The underwear features sewn-in Unique-Dri™ pads that trap liquid and are treated with odour eliminating Agion™ antimicrobial fibres. Wearever underwear will last over 200 washes so in the long run it is also more economical and ecological than disposables.
